# ABOUT **US**

The UCMJ Adult Day Activity Center was created to give aging and mildly disabled adults a place where care, connection, and purpose come first. What began as a simple vision has grown into a community where seniors can enjoy meaningful days filled with wellness, engagement, and joy.

Our daily schedule includes exercise, games, therapy, meals, and community outings, all designed to help participants stay active, build friendships, and enjoy life fully.

More than a day center, UCMJ is a family-centered community built on respect, compassion, and belonging—where every story matters and every individual is celebrated.
